SUMMARY

Seeking Data Analyst role with 6 years of experience in data visualization, analysis, and reporting using IBM Cognos Analytics. Excelled in developing interactive dashboards, identifying trends, and driving data-driven decisions at PCI Energy Solutions and Trek Logistics. Proven ability to collaborate with cross-functional teams, optimize data processes, and present insights to executives.

WORK EXPERIENCE

PCI Energy Solutions

Data Analyst

Feb 2023 - Apr 2024

- Synthesized complex data sets into interactive dashboards and reports, utilizing IBM Cognos Analytics to highlight key performance indicators and trends, enhancing decision-making processes.
- Partnered with stakeholders to define requirements for data visualization projects, ensuring accurate reflection of business needs in reporting outputs.
- Performed comprehensive data collection and cleansing, followed by exploratory analysis to detect underlying patterns, contributing to informed business strategies.
- Delivered presentations on analytical findings to executive teams, facilitating understanding of data insights, and supported critical data integration activities to ensure operational consistency.

Trek Logistics

Junior Data Analyst

Jun 2017 - Aug 2022

- Analyzed complex datasets to uncover trends and insights, enhancing data-driven decision-making.
- Designed and managed interactive dashboards and reports, delivering critical business intelligence to stakeholders.
- Engaged with interdisciplinary teams to translate business requirements into technical specifications for analytics projects.
- Refined data collection methods, significantly elevating the accuracy and quality of analytical outputs.
- Communicated analytical findings to executive leadership, informing and shaping organizational strategy.
